ALTOSID IGR

You won't be measuring fly control into cattle minerals. You will be measuring added weight gains.

Continue feeding Altosid 30 days after a killing frost to lower spring fly population!

Altosid® IGR is pre-mixed and helps keep cattle grazing. Make it the only choice for shelter from the swarm in your mineral supplement.

STILL ONLY 2¢ TO 3¢ PER HEAD

Contact your MFA feed dealer today for horn fly control designed to perform on pasture.
